

GENERAL DENTISTRY INFORMED CONSENT

Patient Name: \_\_\_\_\_

1. Work to Be Done

I understand that I am having the following work done: Fillings\_Bridges\_ Crowns\_ Extractions\_ Sedation\_ RootCanal\_ Other \_\_\_\_\_

2. Drugs, Medications, and Sedation

I have been informed and understand that antibiotics, analgesics and other medications can cause allergic reactions causing redness and swelling of tissues, pain, itching, vomiting, and/or anaphylactic shock (severe allergic reaction) and they can cause pain, thrombophlebitis (inflammation of a vein) from intravenous and intramuscular injections, injury to and stiffening of neck and facial muscles. They may cause drowsiness and lack of awareness and coordination which can be increased if the use of alcohol or other drugs I understand and fully agree not to operate any vehicle or hazardous device for at least 12 hours or until fully recovered from the effects of the anesthetic, medication and drugs that may have been given to me in the office for my care. I understand that failure to take medications prescribed to me in the manner prescribed may offer risks of continued or aggravated infection and pain and potential resistance to effective treatment of my condition.

(Initials \_\_\_\_\_)

3. Changes In Treatment Plan

I understand that during treatment it may be necessary to change or add procedures because of conditions found while working on the teeth that were not discovered during examination; the most common being root canal therapy following routine restorative procedures. I give my permission to the Dentist to make any/all changes and additions as necessary.

(Initials \_\_\_\_\_)

4. Composite Fillings

I understand that some people feel sensitivity after they receive a composite filling. The tooth may be sensitive to pressure, air, sweet foods and cold. Composite fillings often cause sensitivity. In most cases, the sensitivity will subside over one to two weeks. Until then, try to avoid anything that causes it. If your tooth is extremely sensitive or your sensitivity does not decrease after two weeks, please contact us.

(Initials \_\_\_\_\_)

5. Crowns, Bridges, Caps, Veneers ad Bonding

I understand that sometimes it is not possible to match the color of natural teeth exactly with artificial teeth and I further understand that I may be wearing temporary crowns, which may come off easily and that I must be careful to ensure that they are kept on until the permanent crowns are delivered. I realize that the final opportunity to make changes in my new crown, bridge, or cap (including shape, fit, size and color) will be before cementation. It has been explained to me that in a very few cases cosmetic procedures may result in the need for future root canal treatment which cannot always be predicted or anticipated. I understand that cosmetic procedures may affect the tooth surfaces and may require modification of daily cleaning procedures.

(Initials \_\_\_\_\_)

6. Endodontic Treatment (Root Canal)

I realize there is no guarantee that root canal treatment will save my tooth and that complications can occur from the treatment, and that occasionally metal objects are cemented in the tooth or extended through the root which does not necessarily effect the success of the treatment. I understand that occasionally additional surgical procedures may be necessary following root canal treatment (apicoectomy).

(Initials \_\_\_\_\_)

7. Periodontal Loss (Tissue & Bone)

I understand that I have a serious condition, causing gum and bone inflammation or loss and that it can lead to the loss of my teeth. Alternative treatment plans have been explained to me including gum surgery, replacements and/or extractions. I understand that undertaking any dental procedures may have a future adverse effect on my periodontal condition.

(Initials \_\_\_\_\_)

8. Removal of Teeth

Alternatives to removal have been explained to me (root canal therapy, crowns, and periodontal surgery, etc) and I authorize the Dentist to remove the following teeth \_\_\_\_\_ and any others necessary for the reasons in paragraph #3. I understand removing teeth does not always remove all the infection, if present, and it may be necessary to have further treatment. I understand the risks involved in having teeth removed, some of which are pain, swelling, spread of infection, dry socket, loss of feeling in my teeth, lips, tongue and surrounding tissue (Parasthesia) that can last for an indefinite period of time or fractured jaw. I understand I may need further treatment by a specialist or even hospitalization if complications arise during or following treatment, the cost of which is my responsibility.

(Initials \_\_\_\_\_)

9. Dentures- Complete or Partial

I realize that full or partial dentures are artificial constructed of plastic, metal, and/or porcelain. The problems of wearing these appliances have been told to me including looseness, soreness, and possible breakage. I realize the final opportunity to make changes in my new denture (including shape, fit, size, placement and color) will be "teeth in wax" try-in visit. I understand that most dentures require relining approximately three to twelve months after initial placement. The cost for this procedure is not included in the initial denture fee.

(Initials \_\_\_\_\_)

I understand that dentistry is not an exact science and that therefore reputable practitioners cannot properly guarantee results. I acknowledge that no guarantee or assurance has been made by anyone regarding the dental treatment which I have requested and authorized. I understand that each Dentist is an individual practitioner and individual responsible for the dental care rendered to me. I also understand that no other Dentist other than the treating Dentist is irresponsible for my dental treatment.
